CORRECTION TO INFORMATION DISCLOSURE STATEMENT

DATED SEPTEMBER 23, 2002

Applicants herein seek to correct an inadvertent, erroneous statement made in the previous Information Disclosure Statement dated September 23, 2002 (hereinafter, "the September IDS"). In the September IDS, it was stated that:

U.S. Patents 4,922,141 and 4,253,147, listed on the Form PTO-1449, were cited in an Office Action dated June 6, 2002 pertaining to related U.S. Application Serial No. 10/102,237.

The paragraph should have read:

U.S. Patents 4,922,141 and 4,253,147, listed on the Form PTO-1449, were cited in the report of Dr. Lothar Thiele dated May 6, 2002.

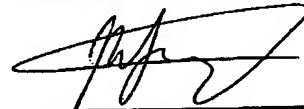

Applicants simply wish to clarify that these patents were not

referenced in the June 6 Office action as originally stated, but rather in the expert report by Thiele.¹ Note that the patents discussed in the paragraph were listed on the modified Form PTO-1449 that accompanied the September IDS, along with US patents 4,712,194 and 4,975,877 that were, in fact, referenced in the June 6, 2002 Office Action pertaining to related U.S. Application Serial No. 10/102,237.

The undersigned respectfully submits that these errors were inadvertent and made without any intent to deceive. If any charges should be incurred for this submission, the Commissioner is hereby authorized to charge Applicants' Deposit Account no. 50-0998.

Respectfully submitted,

Date: Oct 17, 2002

¹As was explained in the Sept. 23 IDS, Dr. Thiele is a court appointed expert for a foreign litigation (i.e., Rambus Inc. vs Infineon Technologies AG, before the Regional Court of Mannheim, Germany) involving European Patent 525 068, which claims priority to the same parent as the instant application.
